**Sacred Vow is a metaphysical novel about a man who responds to the mysterious call of a woman, opening the way to redefinition of both himself and his understanding of the world around him. He takes his first steps on a journey to accept the world around him as a place to live, not simply a place to survive day-to-day. Sacred Vow is both a narrative and the means for the author to communicate a positive message about life and fully integrating the most into each moment. Highly recommended.**
