

Monthly Aspectarian

[Sacred Vow](#) by C.G. Walters. (Dragon's Beard Publishing, \$13.95, Paperback.)

In C.G. Walters' debut novel, *Sacred Vow*, Ian Sarin is drawn into the world of Katerina, an apparent stranger with whom he is immediately familiar. Previously unknown to him, they are living together in many other simultaneous lives. The bond between Ian and this mysterious woman is a key element needed to heal a growing disintegration in the Collective Consciousness, the source of all reality. The Sisterhood to which Katerina belongs has historically assisted the Collective Consciousness to heal a rift that threatens us all when it occurs. Since antiquity, when called by the Collective, they have performed a ritual to bring together two individuals from disparate realities, a member of their order and a second person who has received a chosen message from the Collective. Unaware of any such communication, Ian is that second person at this time in history. As he learns the vast ties he and Katerina share, he and those around him come to consider that their relationships, lives and the work before them were never restricted to what is seen and what is known.

Sacred Vow shares with us the magic of a loving commitment that spans time and the understanding that such a commitment needs to be held sacred. It is a love story, one that shows the journey towards one true love has infinite expressions.
